About Us

Frontier Hockey is located in Estonia. We started our journey (as a producer and as a brand holder) 15 years ago.

The company was established in 2001 by young Estonian enthusiasts-entrepreneurs consulted by the experienced Finnish hockey stick producer Arto Hämäläinen. So, our roots started up from the true Ice Hockey country of Finland and it is definitely not exaggerated to say that Finnish expert Arto Hämäläinen has been our leading trailblazer by building up Frontier Hockey.

Thank you Arto! Thank you Finland!

Frontier became a member of the IIHF Supplier Pool in 2006. The Pool is a group of honourable suppliers who have license to equip athletes at the Olympic Games and World Championships.

For today our best-sellers are pro level Frontier goalie sticks, composite player sticks and visors. Hard work has paid off, so today Frontier goalie sticks are considered to be one of the best of its kind in the whole World. We are really proud about the facts that World Champions title 2008 and KHL Gagarin Cup titles 2009, 2012, 2013 were won by the teams where goalies did their tough job by holding Frontier goalie stick in hand. Thank you for these outstanding performances goes to top level goalies Mikhail Biryukov, Fredrik Norrena, Alexander Yeryomenko.

We at Frontier Hockey believe - it's not important to be the biggest but the best.

Our true intention is to serve equally well all hockey minded customers - from the joyful North-American pond hockey players to the highly dedicated professional players in the pro leagues.

Hockey is worth to be loved and respected in all levels.

With respect,

Imre Taveter
Founder / CEO

BAUER

FRONTIER

9985G Carbon | Sr /Int

9985G Carbon is a slightly tuned up advancement of the most popular Frontier goalie stick 9985G.

9985G is well known as a very light, thin shaped, stable and perfectly balanced goalie stick with excellent rebound control, minimized vibration and ease to move and maneuver.

Now we have added to all these features something extra **an additional layer of carbon fabric** on the blade. Due to this improvement **9985G Carbon** has stiffer blade which makes it a great choice for PRO goalies who like to actively play the puck and who are looking for perfect rebound control features.

Color Options means that you can replace default model color with your team's colors using our color chart. Minimum order quantity 12 pcs.

4. Texalium
5. Paint

9985G Classic | Sr /Int

9985G Classic is currently one of the lightest PU Foam goalie sticks in the market. It's a perfect choice for a goalie who is looking for a light weight stick with a unique feel.

9985G Classic has been recognized "The Best Ever" goalie stick by a number of top KHL and national teams' goalies across Europe.

Color Options means that you can replace default model color with your team's colors using our color chart. Minimum order quantity 12 pcs.

BLADE 1. PU Foam 2. Fiberglass Laminate 3. Texalium 4. Paint

9975G | Sr

9975G is a stick for an athletic goalie looking for a stick with optimal weight and durability. This model is used by double KHL champ Alexander Yeryomenko.

Shaft

- Light wood core
- Carbon fiberglass laminate reinforced
- Optimally rounded corners
- Traditional feel

Paddle

- Armour-like laminate exterior

Blade

- Classic PU foam construction
- Reinforced with inner carbon laminate
- Fiberglass exterior
- Optimal stiffness from heel to toe
- Increased resistance to sharp impacts

Aleksander Yeryomenko #1
Dynamo Moscow / Double KHL Gagarin CUP winner

Blade

1. PU Foam
2. Carbon fiberglass laminate
3. Glassfiber fabric

9950G | Sr /Int/Jr

9950G PU foam stick is a great choice for a goalie who is looking for a high end "Old school feel" goalie stick for reasonable price.

Shaft

- Sr & Int - light wood core, carbon fiberglass laminate reinforced
- Jr - light wood core, fiberglass laminate reinforced

Blade

1. Paint
2. Fiberglass fabric
3. Fiberglass laminate
4. PU Foam

Paddle

1. Paint
2. Fiberglass Fabric
3. Carbon Fiberglass laminate
4. PU Foam

1500G | Kid

This fiberglass and wood constructed goalie stick is a perfect choice for a young player taking the first steps towards being a goalie. The stick is well balanced to feel light in hand, to play and handle the puck easily. Extra durable construction due to wood and fiberglass combination will make the stick last until the little goalie grows out of it.

Shaft

- Durable plywood

Paddle

- Wooden construction
- Fiberglass fabric exterior

Blade

- Wood and fiberglass layers
- Fiberglass fabric exterior
- Available in Left, Right and Straight patterns

G11 Composite | Sr

Great choice for a pro or semi-pro goalie who is looking for a light stick which allows to play the puck and manouver easily.

Weight: 750g

Shaft

- Traditional geometry shaft

Paddle

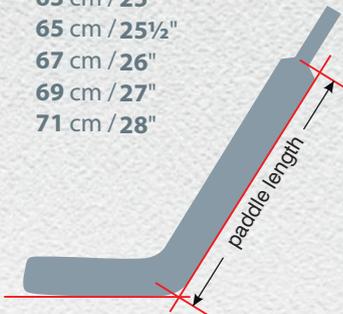

- Carbon and Kevlar are used to make the paddle extra durable
- Relatively thin paddle shape for better balance

Blade

- Lightweight outer carbon walls
- 12K carbon weave exterior
- Centered PU foam bridge surrounded by carbon walls

Wheel Bag PRO | Sr

Designed to contain the full set of senior goalie gear. Strong 1680 denier fabric is combined with rip-stop nylon reinforcements in critical high stress areas.

The straps are long enough to carry the bag on shoulder or just attach the straps together on the top of the bag for comfortable lifting and transportation. The straps are box stitched and reinforced for extra strength. Additional lift-handles are placed on both ends of the bag.

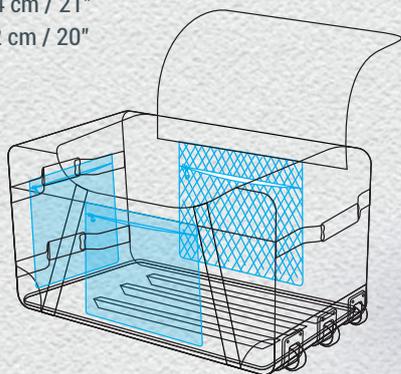

3 large size wheels keep the heavily loaded bag from dragging on the bottom. Internal storage pockets with zippers are placed on each side and on one end of the bag. Wide U shaped opening with extra strong #10 type zipper enables easy access.

Measures:

Long: 112 cm / 44"

High: 54 cm / 21"

Wide: 52 cm / 20"

NEW!

BLACK & RED

BLACK & BLACK

NEW!

Neck Protector | Sr / Jr

Curved chin area fits perfectly on the chest and slides across jersey without blocking head motion.

Molded in polycarbonate for maximum durability and shock resistance. Fitting laces included.

Made in EU  EN ISO 102 56:2015 certified.

PLAYER

F17.0 | Sr / Int / Jr

NEW!

This **TRUE ONE-PIECE** Monocoque stick is produced by using single molding technology and covered fully with 24K carbon weave. Two reinforcing stabilizers that run across the aero foam core blade increase the durability, stiffness and the torsional rigidity of the blade.

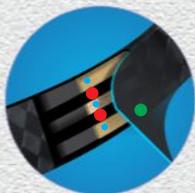

F17.0 has a slim mold shaft with slightly tapered lower part for easier loading and generating more efficient power for shots. The quick release of the stick comes from the low kick point, providing excellent control and accuracy. F17.0 is a perfect stick for pro and semi-pro level players.

- Weight:**
- Sr, 425g
 - Int, 410g
 - Jr, 350g

- SHAFT:**
- Semi-square corners
 - Slight 2-side concave
 - Flat rubber grip

Low kick point

BLADE:

- Two carbon stabilizers
- High density aero foam core
- 24K carbon weave exterior

F11.1 | Sr / Int / Jr

One of the top composite models of Frontier player sticks. Covered fully with 12K carbon weave. Slim shaped mold improves its balance and offers better puck feel in combination with light weight. Low kick point enables fast wrist shots and maximum load.

Construction:
Fused one-piece, 100% carbon

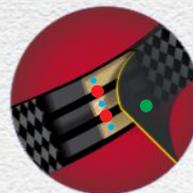

F11.1 is a perfect stick for pro and semi-pro level players.

- Weight:**
- Sr, 440g
 - Int, 410g
 - Jr, 340g

- SHAFT:**
- Semi-square corners
 - Slight 2-side concave
 - Flat rubber grip

Low kick point

BLADE:

- Two carbon stabilizers
- High density aero foam core
- 12K carbon weave exterior

F8.0 | Sr

F8.0 is a fused one-piece stick with mid kick point for a semi-pro player.

Construction:
Fused one-piece 90% carbon
Weight: 480g

SHAFT:

- Semi-square corners
- Slight 2-side concave
- Flat rubber grip

BLADE:

- Durable foam core
- 12K weave reinforced

Carry Bag | sr

It's a practical North-American type of hockey bag. Carefully planned design is simple, logical and comfortable to use.

Features:

- Fabric: high strength 1680D
- Internal pocket for accessories
- Strong #10 type of zipper

1. External ID window
2. Riveted strap reinforcements
3. Vent holes
4. Grab handles on both sides

Color Options:
BLACK / BLUE / DARK GREEN

Wheel Bag | sr

It has a traditional player bag size to easily contain all your equipment. The design and placements of the pockets and straps is carefully calculated to be logical and maximize the ease of usage.

Features:

- Fabric: 840D
- Comfortable U-shaped flap
- Inner lining
- Internal pocket for accessories
- 3 wheels Ø 92mm
- Stiffening rails on the bottom
- Strong #10 type of zipper

1. Separate skate or accessories pocket
2. Strong telescopic pull-handle
3. External ID window
4. Riveted strap reinforcements
5. Vent holes
6. Extra lift-handles on both sides
7. Reflective elements

Visors | sr

Frontier Front Line visors are designed and laboratory tested to resist the extreme impacts of sharp shots. The visors have covered with a special anti-fog and anti-scratch exterior on both sides. If maintained properly the layers will stay active for the whole lifetime of the visor.

1. **1 Set in foil:**
visor and fittings packed in foil.
Cloth and spray included.
2. **1 Set in retail box:**
visor and fittings packed into box.
Cloth and spray included.
3. **10 Sets in Team cargo box:**
10 visors and fitting sets individually packed in foil.
10 cloths and sprays included in the box.

Anti Scratch & Anti Fog Protection System

- Anti fog and Anti scratch surfaces, distortion free
- Not a film that can be washed off
- Layers stay active for visor's lifetime when maintained properly
- Made in EU

CE EN ISO 102 56:2015 certified.

SL 95G | Sr

This goalie stick is comfortable, light and durable.

Features:

- Carefully selected lightwood shaft
- Fiberglass fabric reinforced multilam core blade
- Fiberglass sock reinforcement on the top of the shaft
- Weight: 370gr

Fiberglass sock reinforcement on the top of the shaft

Blade pattern: **REG**

SL 95 | Sr

Player wooden stick is durable and of high quality, perfect for an advanced or pro level sledge hockey player.

Features:

- Durability in combination with relatively light weight
- Resistant fiberglass reinforced multilam blade
- Carefully selected lightwood
- Extra reinforcement by fiberglass sock at the top of the shaft
- Weight: 305gr

Blade pattern: **SHB**

Blade pattern: **FS**
